

Immunohistochemistry & Immunofluorescence

A Histochemical Society Hands-on Training Course

Theme, Format, and Participants

Immunohistochemistry and Immunofluorescence (IHCIF): A Histochemical Society Hands-on Training Course is a 4.5-day laboratory short course. It is ideal for experimental and translational research scientists, diagnosticians, and technical staff who are new to immunohistochemistry and immunofluorescence or those with experience who aim to take their skills to the next level. Faculty to student ratios are low (1:3 or better) to maximize participants' experience at the course and foster networking opportunities during and beyond the course. Lunch and dinner will be included for participants.

Faculty

Our faculty are expert practitioners with diverse backgrounds in terms of the theory and application of these techniques as well as microscopy. Faculty attending in-person:

- **A. Sally Davis**, DVM, PhD, DACVP, DACVM, Resident Education and Outreach Lead, HCS; Adjunct Faculty College of Veterinary Medicine, Kansas State University; Extraordinary Lecturer, Veterinary Faculty, University of Pretoria
- **Francesca Duncan**, PhD, Co-Director, Center for Reproductive Science and Associate Professor, Department of Obstetrics and Gynecology, Feinberg School of Medicine, Northwestern University
- **Charles W. Frevert**, DVM, ScD, Professor, Department of Comparative Medicine, University of Washington (UW); Professor, Department of Medicine, Division of Pulmonary Critical Care Medicine and Sleep Medicine, UW; Adjunct Professor, Department of Laboratory Medicine and Pathology, UW
- **Paul C. Goodwin**, MS, Past-President, The Histochemical Society; Science Director, Cytiva; Affiliate Teaching Associate, Department of Comparative Medicine, University of Washington
- **Madison Gowett**, MS Graduate Student, Molecular, Cellular and Developmental Biology, Yale University
- **Stephen M. Hewitt**, MD, PhD, Head, Experimental Pathology Laboratory, Center for Cancer Research, National Cancer Institute, NIH
- **Frank Peale**, MD, PhD, Distinguished Pathologist, Genentech
- **Leon Schermerhorn**, DVM, Relief Veterinarian, VCA Animal Hospitals
- **Scott Tanner**, PhD, Assistant Professor of Biology, Division of Natural Sciences & Engineering University of South Carolina Upstate

Our 2022 course received rave reviews! Follow the QR code to learn more and read student testimonials, [ihcif course \(histochemicalsociety.org\)](https://www.histochemicalsociety.org).

Ways to Support the Course

Lunch, Dinner, Coffee Break

The sure way to someone's heart is through their stomach... or so the saying goes. True enough, a clear way to be noticed is to sponsor a meal or break at a scientific event. Your banner and materials will be displayed at the food distribution area and printed in the program. Participants will notice you and be grateful!

- Lunch: \$500
- Coffee Break: \$250
- Dinner: \$1000
- Reception: \$1500

Travel Award

Many participants will travel to attend the course. A reasonably priced hotel is within walking but travel expenses add-up. Travel awards will be offered to help off-set the out-of-pocket expenses for students. Your organization will be mentioned in the travel award letter to the student and in the course materials.

- \$500 per travel award

General Financial Support

Support the course with a financial contribution. Your logo will appear on the website and in the course materials. Additionally, you may send promotional items for a display table in the main meeting area.

In Kind Donations

Contributions of supplies for this hands-on course are welcome! Companies interested in providing in kind donations of lab or classroom materials should contact the [HCS business office](#) or [course administrator](#) directly. All offers of supplies will be considered and ample promotional opportunities will be provided to sponsoring companies. Contact us to discuss further!
